1974 Golf LS
VIN **1753060509**
Built: August 1974
First Reg.: September 27th, 1974
Plate (Dutch): 87-DU-56
Body: 2 door
Engine: 1.5 liter 70hp
Color: Brilliantgelb L11C
Interior: Black leatherette/grey cloth

And here is TWO MORE! (December 19th, 2004)
I got myself another TWO swallowtails! That makes four total (hey, if I see one I get it, these babies are too rare to pass up, right?). I don't have all the info yet, but here is some first info:

The first one is another september 1974 Golf LS. The tag was issued only days after my other '74 Golf LS (this one is 88-DU-01, my yellow one has tag 87-DU-56). It's in remarkable condition with

virtually zero welding done by previous owners. 128k kilometers on the clock. Has some rust but nothing major, ready for use!!! Incredible huh? **The engine is still original, so is te gearbox. Has just about ALL the cool parts (including metal doorsteps, zippo lighter, foam block, shorty raintray etc etc...only thing it misses is the smooth hood (which I still have one in stock).** I'll give you the full info (including VIN etc) when I pick up the car in January.

And here is a little bonus from Stijn!

"I wanted to share this little bit of history with you guys. Below is a pic taken back in 1980 of my girlfriend, Suzanne, then 1 year old. She's in the driversseat of her dad's 1974 Golf.....check out the colour (vipergreen?) and the optional kneebar. Also the oldschool winddeflectors and '74 only half vinyl/half cloth seats are megacool. Found this in an old photoalbum."
