And here is a little bonus from Stijn!

"I wanted to share this little bit of history with you guys. Below is a pic taken back in 1980 of my girlfriend, Suzanne, then 1 year old. She's in the drivers seat of her dad's 1974 Golf.....check out the colour (vipergreen?) and the optional kneebar. Also the oldschool winddeflectors and '74 only half vinyl/half cloth seats are megacool. Found this in an old photoalbum."
